2010/2011

About the Cover

Our heartfelt thanks goes to Bill Coons for providing the cover art for this 2010-2011 edition of the Skyport Services catalog. Bill is a giant in the Ercoupe community and his pen and ink drawings are well known among Ercoupers. We are pleased and proud that he has allowed us to use his artwork.

Bill is a veteran of WWII and has written about his experience in the Pacific. "Shoot Only at the Red Airplane" details the use of radio control target aircraft during the war. The book is available from Amazon, Lulu, and Barnes and Noble.

The tail raising spacers used on the main gear available nowadays were researched and developed by Bill and he received a 337 for their use in 1990. This has become the approved data used today.

Notable honors for Bill include his Induction into the Illinois Aviation Hall of Fame this year and the Fred Weick Award in 1993. Bill remains active in the Ercoupe community and can be reached at ercoupefly@sbcglobal.net. Drop him a line and say "Thanks for Everything."

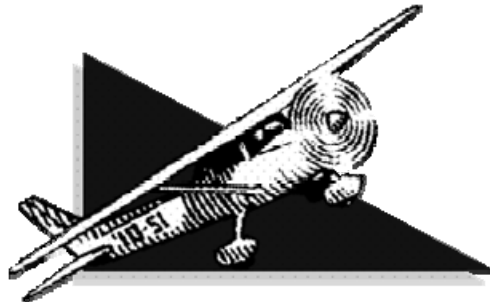

Ercoupe owners! Skyport Services is open for business in Middletown, Ohio – Hook Field (KMWO).

We are located within the FBO building/hanger. Come and see us!

Skyport is in the process of increasing inventory and working to produce some Skyport items which were previously unsupported. Call about information regarding gross weight increase to 1320 pounds, shoulder harness STC, installation of model E split elevator on C, D, and CD models, 9 cubic ft. baggage compartment kits, and improved brake system with master cylinder and reservoir. Fiberglass nose bowls are still in the works and wheel pants are currently available. Call Mike at 1-800-624-5312.

The parent company of Skyport, ***Safe Flight Aviation LLC***, is able to perform annual inspections, installations and modifications, safe, quick and at a great price!!! Owners interested in having work done should contact Safe Flight at 1-513-217-5141.

Safe Flight Aviation LLC

**Thank you for your interest and
*Keep Coupes flying!***

TERMS and CONDITIONS

Our office will be staffed from 0800 to 1700 ET, Monday thru Friday. We have a toll-free number, 1-800-624-5312. We accept Visa, MasterCard or Discover. We will ship all ground packages UPS unless other instructions are requested. If you are in the Midwest area, you are welcome to fly in or drive in to the Middletown Airport, Middletown, Ohio(KMWO).

We except MasterCard, Visa, Discover, checks or cash. Additional handling/packing fees will be added for oversize and fragile items. Canadian orders require 20% (\$11.00 min.) for shipping/handling. (prices are for ground UPS shipments. Canadian orders are also subject to Brokerage/Custom fees charged by Canadian Authorities. Air Shipment Orders require an additional charge. Some parts are subject to an additional CORE charge. Full refund of CORE charge is based on a part that can be rebuilt as determined by the approved Repair Station/Vendor.

HOW TO ORDER: *Please be sure to include with your order:*

- A. **Your Complete Address** with zip code - a street address is necessary for UPS delivery and a phone number where you can be reached during the day for delivery or if there is a problem with your order.
- B. Model, Serial Number, and "N" Number or CF registry of the aircraft. This information is **MANDATORY WHEN ORDERING AN STC'D ITEM!**
- C. **Part Number**, Full Description, LH or RH (from pilot's position) if applicable, and the quantity needed. The 415 series parts catalog is now available free of charge at www.ercoupeparts.com!!!
- D. Method of Payment - check, Money Order, credit card. Your credit card statement will show charges to Skyport Services/Safe Flight LLC.

Orders placed before 2:00 Eastern Time will normally be shipped the same day. On orders requested or requiring truck shipping, customer relieves shipper of any responsibility for any damage incurred in transit. It is the customer's responsibility to file any claim with the freight company.

Please inspect all items upon receipt. If for any reason you are not satisfied with your parts, please contact us promptly for credit authorization. NO refunds on electrical components.

ALL RETURNS MUST BE MADE WITHIN 30 DAYS OF RECEIPT AND MUST INCLUDE A COPY OF THE ORIGINAL INVOICE AND REASON FOR RETURN. THERE IS A 20% RESTOCKING CHARGE ON ALL RETURNS.

OUR SHIPPING ADDRESS IS:

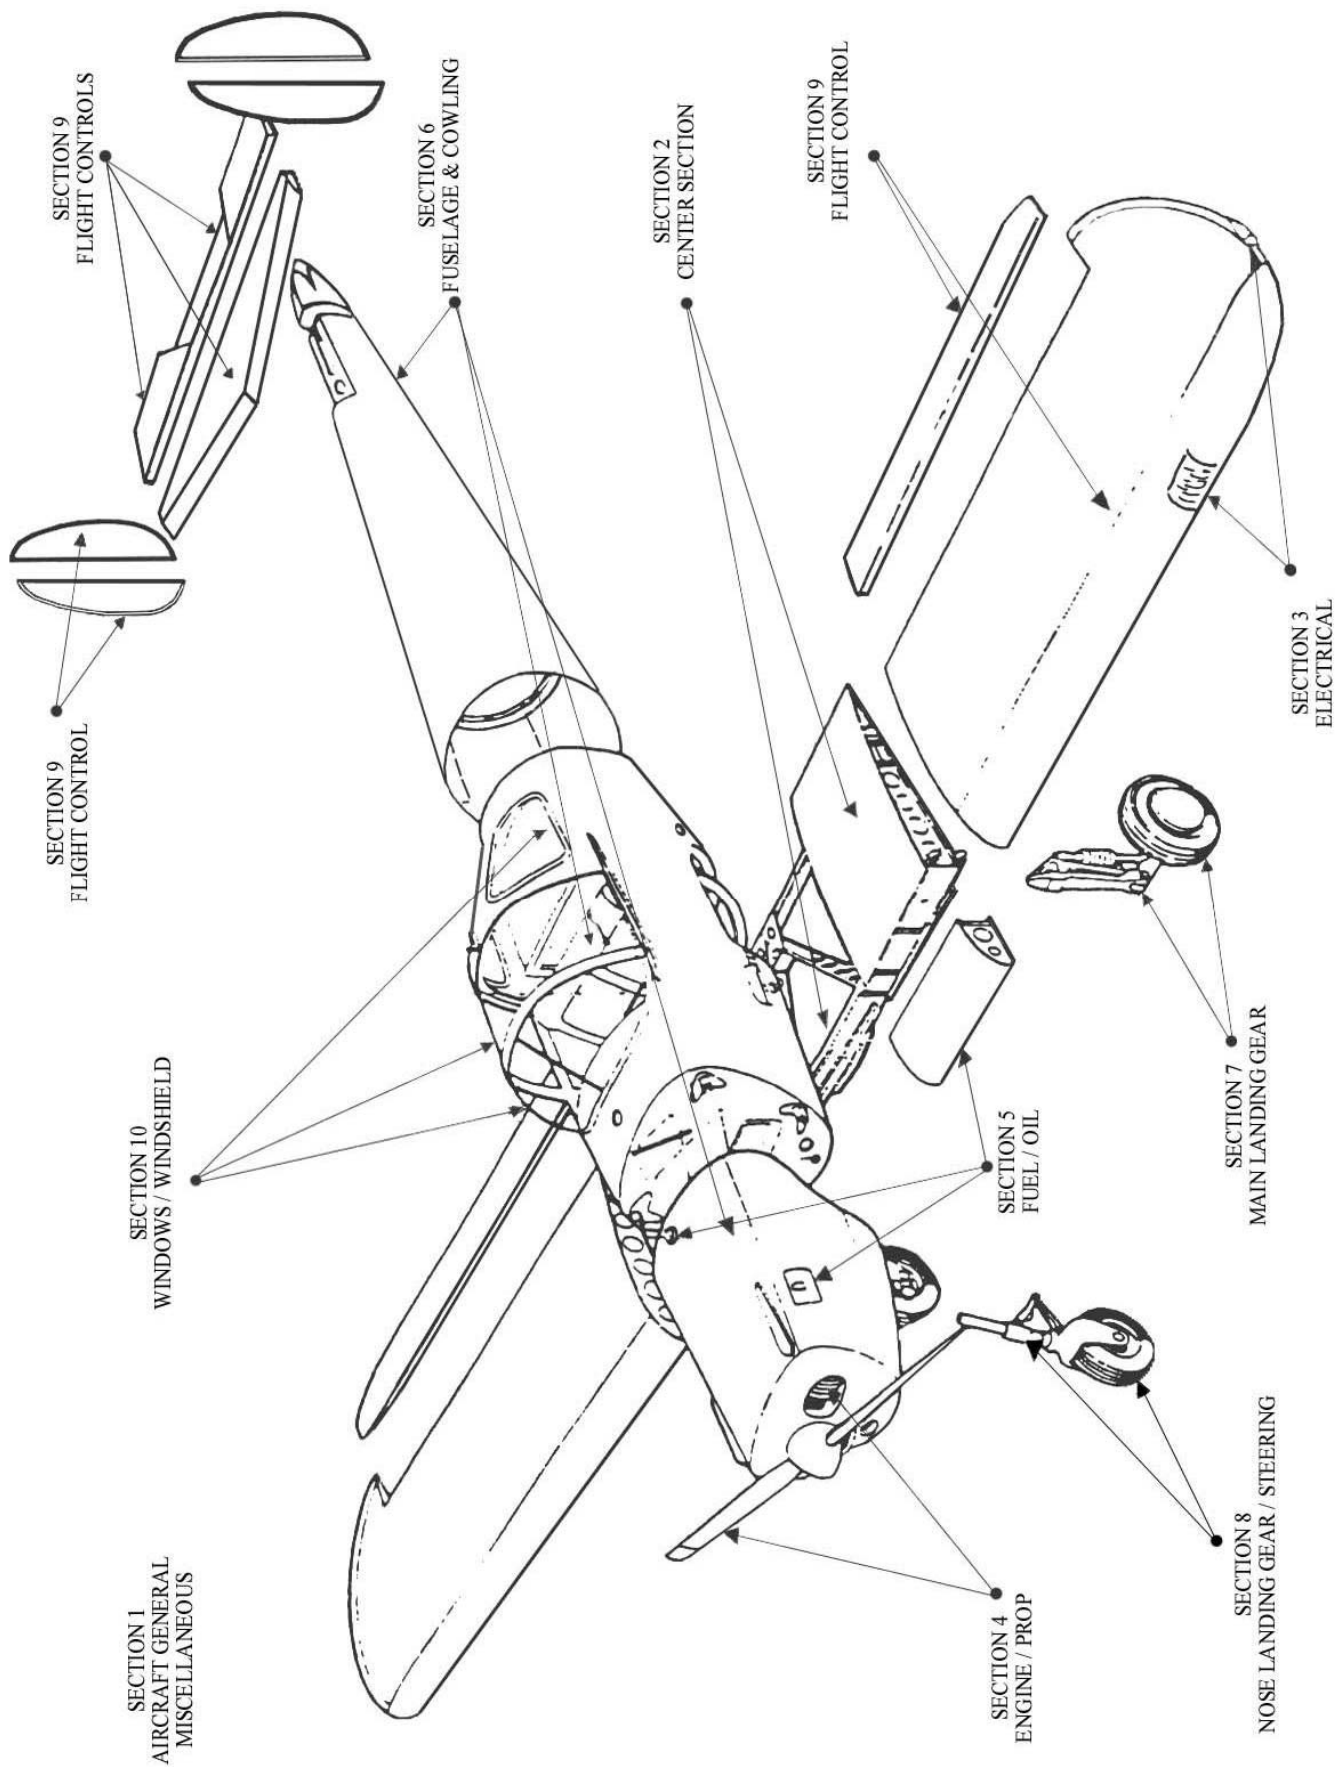

**Skyport Services
1707 Run Way
Middletown, Ohio 45042**

TABLE OF CONTENTS

The appended price list catalog covers the most frequently required parts, kits, and literature. If what you need is not included it may not be a stock item. However we may be able to locate it for you.

Bring your coupe into the 21st century with the following STC'S:

ERCOUPE GROSS WEIGHT INCREASE

LSA # 1320

STC SA02450CH

FAA APPROVED 7/11/2007

STC SA02450CH

Will Increase The Allowable Gross Weight of Univair (ERCO) 415-C and -CD Aircraft From Their Present 1260 Pounds to a 1320 Pound Maximum Weight. This 60-Pound Increase In Gross Weight Will Provide the Operator With A Greater Margin of Safety Through The Ability of the Average Aircraft To Carry A Full Fuel Load (24 Gallons) And Two 170-Pound Occupants.

- Ercoupe 415C and 415CD Owners
- Serial #'s 113-4423 and 4500 and up
- Gross Weight Increase - LSA 1320 pounds
- No Parts Required (In Most Cases)

\$200.00

Shipping \$5.00

ORDER SKYPORT P/N SMK-119

SECTION STC (continued)

The following two pages are the airframe specifications that must be met before installation of Alpha Gross Weight Increase STC SA02450CH.

Univair (ERCO) Model 415-C or Model 415-CD

#1320 GROSS WEIGHT INCREASE

This STC authorizes the increase of the allowable gross weight of Univair (ERCO) 415-C and -CD aircraft from the present 1260 pounds to a 1320-pound maximum weight.

This 60-pound increase in gross weight will provide the operator with a greater margin of safety, through the ability of the average aircraft to carry a full fuel load (24 Gallons) and two 170-pound occupants.

Airframe Qualification

The following criteria must be met prior to the application of STC SA02450CH and the use of the increased gross weight that it authorizes.

The aircraft is a Univair (ERCO) Model 415-C or Model 415-CD.

The aircraft has not been converted to a Car 03, TCDS A-787 aircraft.

The aircraft must be in compliance with CAR, Part 4a, approved TCDS A-718.

The aircraft is to have a standard airworthiness certificate.

The airworthiness certificate is in the Normal Category.

The aircraft is powered by one of the following approved engines:

TCM: C75-12; C75-12F; C85-12 or C85-12F

The installed propeller is approved in combination with the installed engine.

Previous modifications or applied STC.s do not preclude the installation of this STC.

Determine that an acceptable longitudinal control system is installed or can be installed.

Elevator and Trim Tab Requirements -

The subject 415-C and CD Aircraft must incorporate a longitudinal control system meeting the following:

Elevator - Full span elevator (ERCO Drawing 415-22017, with a moveable 1 3/8. trim tab cut into the right

Trailing edge. (ERCO Drawing 415-22031)

--CONT

SECTION STC (continued)

--CONT

Or

Elevator - Split elevator assembly (ERCO Drawing 415- 22037)

And

Trim control - Cabin wall (415-C) or console mounted control. (415-CD)

Discussion -

There are three styles of elevators that may be found installed on Model 415-C and 415-CD aircraft.

415-C Aircraft were originally equipped with a full span elevator (ERCO Drawing 415-22001), without a moveable trim tab.

Elevators, per drawing 415-22001 do not fulfill the requirements of this STC.

Later 415-C Aircraft were equipped with a full span elevator (ERCO Drawing 415-22017), with a moveable $\frac{3}{4}$. trim tab, cut into the right trailing edge. (ERCO Drawing 415-22027)

Aircraft with $\frac{3}{4}$. trim tabs per ERCO Drawing 415-22027 will need to be updated with the installation of PN 415-22031-4, 1 $\frac{3}{8}$. trim tab blade, per ERCO Drawing 415- 22031.

415-CD Aircraft were equipped with a full span elevator (ERCO Drawing 415-22017, with a moveable 1 $\frac{3}{8}$. trim tab cut into the right trailing edge. (ERCO Drawing 415-22031).

These installation conform to the requirements of STC SA02450CH.

415-C and 415-CD Aircraft, Model E split elevator.

An unknown number of 415-C and 415-CD aircraft have been field modified and FAA approved to incorporate the split elevator assembly (ERCO Drawing 415- 22037), first seen on Model 415-E aircraft.

It has been determined that a properly rigged E model elevator assembly satisfies the requirements of this STC.

SECTION STC (continued)

INSTALLATION of MODEL - E ELEVATOR

UNIVAIR (ERCO) 415-C, 415-CD, 415-D / SERIAL # 113 through 4868
STC SA02757CH

Model E Elevator Installation

This STC was developed in order to improve the handling, landing performance and safety of certain Univair (ERCO) 415-C, -CD, - D aircraft through the installation of the later Model "E" split elevator assembly (Drawing 415-22037) and Low Speed Warning Cushion (Drawing 415-52025)

This installation improves the slow speed handling and landing performance of the aircraft without sacrificing the anti-spin characteristics of the design.

Required Changes: This effort will require that candidate 415-C aircraft be modified, if not previously accomplished, to include an elevator trim tab control system. Univair Installation SK-4

The Modification of 415-C, -CD and -D aircraft will include installing an "E" elevator assembly (415-22037), center hinge (415-22038), elevator control arm (415-52024), spring (415-22026) and link (415-52027); plus attaching hardware to complete the Low Speed Warning Cushion.

Parts may be sourced as removed from the existing installation, salvaged parts or new production items.

SHOULDER HARNESSSES

3-POINT DIAGONAL RESTRAINT SYSTEM

415-C, 415-CD, 415-D, Model E, Model-G, F-1, F-1A Series Aircraft

STC SA02493CH

INCLUDED WITH THIS KIT: New Shoulder and Lap Belts for Both Pilot & Co-Pilot Positions (2 seats), new assemblies, all necessary parts & hardware and STC Authorization.

This STC approves the installation of a vendor supplied TSO-C114 restraint system, at each pilot position. The restraint system incorporates a traditional pelvic restraint strap (lap belt) provided with the provision to attach, as needed, a single diagonal torso restraint strap. The aft end of the torso restraint strap is hard mounted to the airframe at a location aft of each pilot position. The free end of the strap is attached to the pelvic restraint at the buckle location and adjusted, as necessary, by use of the cinch strap provided. The attachments for the pelvic restraint straps (lap belts) are unchanged.

ORDER SKYPORT P/N SMK-117

BATTERY MASTER RELAY

STC SA02601CH

INSTALLATION of a BATTERY MASTER RELAY

This STC effort is undertaken in order to increase the safety and maintainability of Univair (ERCO) 415-C, 415-CD, 415-D, MODEL -E, -G, -F-1, F-1A aircraft.

As these aircraft have aged, a design shortcoming, lack of electrical system control through a battery master relay, has surfaced. The current design utilizes an AN3023-2 Toggle Switch, in series with the main electrical bus, to control the airframe electrical load. In essence, the entire ships starting and operating load passes through the contacts of the AN3023-2 Toggle Switch, resulting in a voltage drop across the contacts, contact heating and reduced switch life. The modification of the electrical system by the installation of a high current capacity master relay will modernize the electrical system and reduce the instances of contact heating and failure.

This STC Kit Includes:

415-C, 415-CD, 415-D, MODEL - E, - G, - F-1, F-1A AIRCRAFT

- Continuous Duty Relay
- Master DP/ST Switch
- AMP Connector
- Insulating Boots
- Wire Ring Terminals
- Wire
- Wire Splice
- Diode
- Heat Shrink
- Screws, Washers & Nuts

NOTE: 1 - "Master Switch" - 12 Point type or larger to be Fabricated Locally.

SKYPORT NOW REBUILDS ALL ALUMINUM RIVITED FUEL TANKS!!!

Your tank will be completely disassembled, cleaned and stripped, repaired as necessary, acid-etched and alodined, assembled, and pressure tested. We will also provide a logbook entry reflecting the repair. Call for prices and details.

30-GALLON FUEL SYSTEM

30-GALLON FUEL SYSTEM GENERAL INFORMATION
STC FOR ALL 415, FORNEY, ALON AND M10 COUPES
S/N 813 & ABOVE* STC-FAA-PMA – STC FOR SALE!!!

KITS: SMK-68, SMK-69, SMK-70 or SMK-71

When you order the 30-gallon fuel system from Skyport Services, you will receive all necessary instructions for removal and installation. We have had the systems in many of our Couper's planes for over ten years with thousands of hours of flight time. We have over 40 installations with excellent results. We estimate it will take the first timer approximately 50 to 60 hours or six (6) days to complete installation. The first two days are for removal of old system. Third through fifth days are for mounting new system, with the final day for finishing installation and testing.

*You will receive all the necessary fuel lines, fittings, clamps and brackets. A new electric standby fuel pump**, and a new fuel shut off valve is included. We have made every effort during prototyping to make a "standard" system, however it is recognized that over the years no two Coupes are alike. Therefore, credit will be allowed for any un-used new parts that do not "fit" into your system or where you found duplication with old parts as specified by the instructions and /or drawings. Skyport Services will also allow a core credit for your three old tanks. Credit will be based on the condition of your old tank, with a minimum of \$25.00 each for unusable tanks and up to \$100.00 for a good condition header tank, and up to \$125.00 each for a good wing tank. Turnplate, patched tanks or poorly sealed tanks will receive minimum credit each.*

If you have a Stromberg NAS3A1 carburetor, you will have to change the 383911 standard seat with a 384585 seat that has a .113 hole, because the new system operates at a greater fuel pressure. The 384585 seat is available from SKYPORT. No changes are necessary if you have a MARVEL-SCHEBLER MA-3SPA. If you have converted to an O-200 engine, the engine must have an engine driven fuel pump. All other Ercoupes have engine driven fuel pumps. If you have the original LH Wing Tank Fuel gauge assembly, reuse that. This original fuel gauge is no longer available through normal supply sources. Conversion to other fuel gauges offered on the open market will require field approval via form 337.

We feel this installation deserves serious consideration because it will eliminate the safety hazards caused by the header tank. It will give you extra fuel capacity and much needed room behind the panel. There is no effect on automotive fuel STC. Unusable fuel is less than 5%.

* See page 24 for more information.

** See page 26 for replacement filters & gaskets for this fuel pump.

INSTRUMENT PANEL MODIFICATION KITS

HAPPINESS IS Having all INSTRUMENTS right in front of you. Our NEW "ALON STYLE" Instrument Panel fits all Models of ERCOUPES or FORNEYS ... Provides plenty of space for a full Gyro set-up. The "BASIC SIX" Flight Instruments can be grouped on a separate STANDOFF PANEL, right where they belong ... directly in front of the pilot. The bottom edge of PANEL is 1 3/4" LOWER - (13.75" high on center line) than original to permit PANEL mounting of RADIO.

Fabricated from .050" thick ALUMINUM (Same as original panel). **NOT AN OVER-LAY.** Furnished Blank, except for CONTROL SHAFT HOLES. Layout & Instructions provided. Kit includes FIBERGLASS GLARE SHIELD for flight group instruments and RAISED FLIGHT GROUP PANEL.

SMK-77..... \$ 495.00

NOTE: You must have BUBBLE WINDSHIELD installed to accommodate this kit because of GLARE SHIELD HEIGHT.

ALSO AVAILABLE Panel (Same as above, but does not include the separate FLIGHT GROUP PANEL or GLARE SHIELD). Furnished blank, except for CONTROL SHAFT HOLES.

BUBBLE WINDSHIELD NOT REQUIRED for SMK 78, oversize panel only.

SMK-78	OVERSIZE PANEL Only	\$ 325.00
KE2-540-9	FLIGHT GROUP PANEL Only.....(From SMK-77).....	\$ 85.00
KE2-540-17*	GLARE SHIELD EYEBROW Only..(From SMK-77)	\$ 95.00
SMK-79	STANDARD SIZE PANEL (Same as ORIGINAL) BLANK with SHAFT HOLES.....(11.875" High on Center Line)	\$245.00
170702	Black vinyl bead 3/16" diameter 54" long between top of instrument panel and glare shield.....	\$19.95

FORM 337 and ONE-TIME FIELD APPROVAL required for all INSTRUMENT PANEL ITEMS LISTED ABOVE. All PANELS come with INSTRUCTIONS and a SAMPLE 337 FORM.

SECTION 7

MAIN LANDING GEAR / BRAKES

PART NUMBER

DESCRIPTION PRICE

A. KITS and MODIFICATIONS

SMK-20* REBUILT ORIGINAL SCOTT Model 4350 MASTER CYLINDER(ADD \$35.00 CORE)...\$ 125.00

***This rebuilt SCOTT master cylinder will be ideal for those older HAYES/GOODRICH brake systems factory installed on S/N 1-812 and also on later Ercoupes and Forneys (S/N 813 and newer) with factory installed HAYES/GOODRICH systems. In any case you should ensure that the wheel brake linings discs and "O"-rings are like new and the system operates efficiently save replacement of a leaking or weak Master Cylinder**

SMK-34	MAIN GEAR KNEE JOINT REBUILD – S/N: 813 and newer	\$ 68.25
SMK-34A	OLEO STRUT ATTACH HARDWARE – S/N: 813 and newer	\$ 42.70
SMK-34B	OLEO STRUT ATTACH HARDWARE – S/N: 812 and older.....	\$ 55.25
SMK-34H	MAIN GEAR KNEE JOINT REBUILD – S/N: 812 and older.....	\$ 115.50
SMK-53	MASTER BRAKE CYLINDER O-RING KIT	\$ 3.85
SMK-53A	MASTER BRAKE CYLINDER O-RING KIT- F-1A, A-2, A2-A, M10.....	\$ 3.85
SMK-54	BRAKE LININGS KIT - CLEVELAND CONVERSION SN 813 &UP	\$ 36.95
SMK-54C	BRAKE LININGS KIT - CLEVELAND 30-4 BRAKES A-2/A2-A/M10	\$ 36.95
SMK-54H	BRAKE LININGS KIT - CLEVELAND SN 812 & LOWER.....	\$ 65.00
SMK-54S	BRAKE LININGS KIT – CLEVELAND 30-63/56A BRAKES.....	\$ 36.95
SMK-54X	BRAKE CYLINDER O-RING KIT for GOODYEAR (Both sides).....	\$ 10.95
SMK-54Y	BRAKE BLEEDER SCREWS/WASHERS – GOODYEAR (2 EACH)	\$ 1.50
SMK-58	BRAKE HOSE ASSY KIT- (MLG LEGS to WHEELS). Required for CLEVELAND Kits. .	\$ 108.75
SMK-61	RUBBER CUP OLEO SEAL. Adapts to wear when O-RING fails (STC-FAA-PMA).....	\$ 49.95
SMK-84	STAINLESS MLG BUSHINGS to RAISE TAIL – Stainless Steel (With 337)	\$ 39.95
SMK-98	BRAKE RESERVOIR REPLACEMENT (For all brake systems) (STC-FAA-PMA)	\$ 76.95
SMK-115	BELLEVILLE SPRING CONVERSION KIT (Approved for S/N: 813 and up).....	\$ 626.80
SMK-88**	BRAKE MASTER CYLINDER REPLACEMENT (STC-FAA-PMA) Add \$35.00 CORE ..	\$ 129.95

****The NEW Skyport FAA-PMA replacement Master Cylinder installation will give outstanding results when coupled with a CLEVELAND Wheel Brake System installation. This is the best combination you can have.**

Excellent system operation can be achieved with GOODYEAR brakes installed provided that the linings & discs are near new. If this is not the case, order SMK-20 instead. However, if you have HAYES/GOODRICH Brakes, SMK-88 will not work, order SMK-20 only.

SMK-63	DOUBLE	NOSE FORK	\$	2,485.00
SMK-64		SINGLE NOSE FORK		\$ 2,485.00

EARLY TUBULAR STEEL (HAYES) MAIN GEAR LEGS

SMK-65	DOUBLE	NOSE FORK	\$	2,385.00
SMK-66	SINGLE	NOSE FORK	\$	2,385.00

SPRING STEEL (A2-A, M10) MAIN GEAR LEGS

SMK-67		DOUBLE NOSE FORK		\$ 2,485.00
--------	--	------------------	--	-------------

Specify type of MAIN GEAR when ordering and also if you have CLEVELAND BRAKES.

New simplified design is stronger, lighter and easier to install.

Not compatible with Landing Light Kits that install on gear legs.

Flared wheel openings permit easy access to tire valves with no sacrifice in stream lining.

Main gear fairings are fully articulated and remain level at all times. Strut action is not restricted.

Increase cruise speed 3 MPH. No affect on aircraft trim, control or C.G.

Kit includes necessary components for installation. Parts simply bolt on. Fiberglass units shipped as removed from molds. Filling, sanding and painting is required.

Replacement fairings and heavy-duty nose landing gear fairings are available.

Complete kit orders require a 50% down payment and a 3-6 week lead-time.

SECTION 8

NOSE LANDING GEAR / STEERING

<u>PART NUMBER</u>	<u>DESCRIPTION</u>	<u>PRICE</u>
A. <u>KITS and MODIFICATIONS</u>		
FMK-101	NOSE GEAR STEERING BALL CONVERSION KIT (M-10 DESIGN) Substitutes FEMALE ROD END BEARING - PUSHROD must be one of two listed next	\$ 102.90

AFTER YEARS OF WAITING SKYPORT SERVICES NOW BRINGS YOU NEW CONTROL YOKE HUB COVERS!

The only complete video documentary of **Ercoupes to Aircoupes!**

FEARLESS FLYING
The Ercoupe Story

\$29.95*

A remarkable history of an innovative aviation design decades ahead of its time. Many said flying the world's first spin proof, two control, tricycle landing gear airplane was like "driving a car."
